## FREESTANDING GAS GRIDDLE WITH BRUSHED, CHROME-PLATED, SMOOTH PLATE ON OPEN CABINET

- Freestanding gas griddle on an open cabinet (120 cm) with a brushed chrome-plated, smooth cooking plate to cook a variety of products: from meat to fish and vegetables.
- The cooking plate recessed and hermetically welded to the worktop allows you to cook large quantities of different foods.
- The anti-scratch cooking plate ensures resistance to scratches and corrosion, while the striping enhances product grilling.
- The non-stick plate ensures quick and effortless cleaning, prevents oxidation, and eliminates any flavour transfer.
- The chrome-plated surface ensures less energy consumption and heat dispersion.
- Heating through 3 2-branch chrome-plated steel burners (8 kW) with 3 independent cooking zones.
- Operating thermostatic valve with temperature ranging between 150°C and 300°C.
- Safety thermostat.
- · Scraper included.
- AISI 304 stainless steel height-adjustable feet (133/195 mm).
- Chrome-plated griddles comply with EU Regulation 1935/2004 concerning food contact materials and articles which are intended to come into contact with food.
- AISI 304 stainless steel 2mm thick worktop and Scotch Brite finish with internal side-by-side joining system.
- AISI 304 stainless steel control panel and side panels.
- Equipment intended for direct cooking of food, use for heating pots or pans is not permitted.
- Ignition through a piezoelectric device with a water protection cap.
- Pilot burner and safety thermocouple.
- $\bullet$  Sloped Inclined cooking plate (15 mm thick) to drain grease and liquids.
- Heating and control commands specific for each zone.
- Removable liquid and grease collection drawer with overflow hole.
- Removable splashback on 3 sides and cap included.
- Technical compartment for easy connection to the gas network.
- The gas appliances are CE-certified by German body DVGW and have passed the most stringent safety tests.
- The supply of the equipment follows the customer's wishes in terms of nozzles installed, even during the testing phase. The standard configuration is G20 natural gas. In addition, a set of nozzles is supplied should conversion on site be necessary.
